- * This report currently contains data from Creative SocioMedic's - Behavioral Health Information System's - Decision Support System (DSS) and the Community Services Data System (CSDS).
- * Age is calculated at the beginning of the fiscal year for data received from the Hospital (DSS) system. Age is calculated at the time of enrollment for data received from the Community (CSDS) system.
- * Data reported under the "Other Psychiatric Inpatient" category are derived from the community setting using some established rules defining certain procedures as qualifying criteria.
- * Data reported under the "Residential Treatment Center for Children" category are derived from the Community setting using established rules defining certain ROLES (Restrictiveness of Living Environment Scores) values as qualifying criteria.
- * Consumers may be counted in more than one category. Therefore, this is not unduplicated data.
